Live forecast

Nick Langworthy has won.

Our election model estimates who will win in the votes we think remain. As more votes are

We turned off the live forecast at 3 a.m. Eastern on Nov. 4. These graphics and estimates will no longer be updated. **Show the archived estimates.**

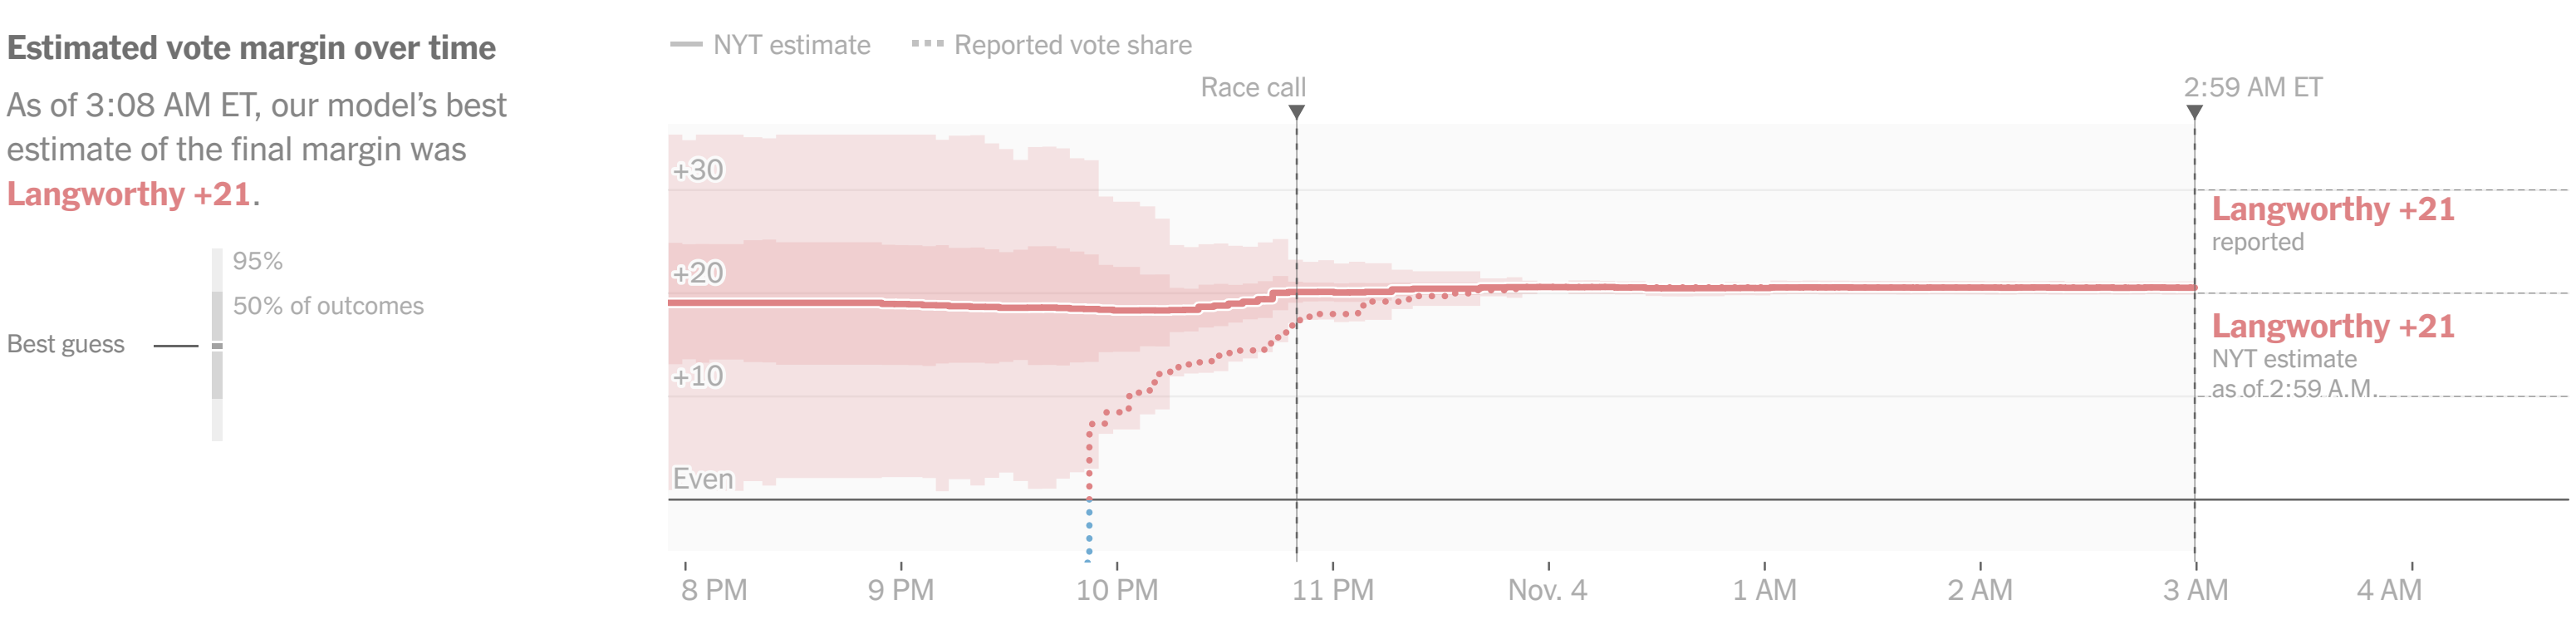
Where votes remain

These maps show how far the leading candidate is ahead in the reported votes, and where our model estimates outstanding votes remain.

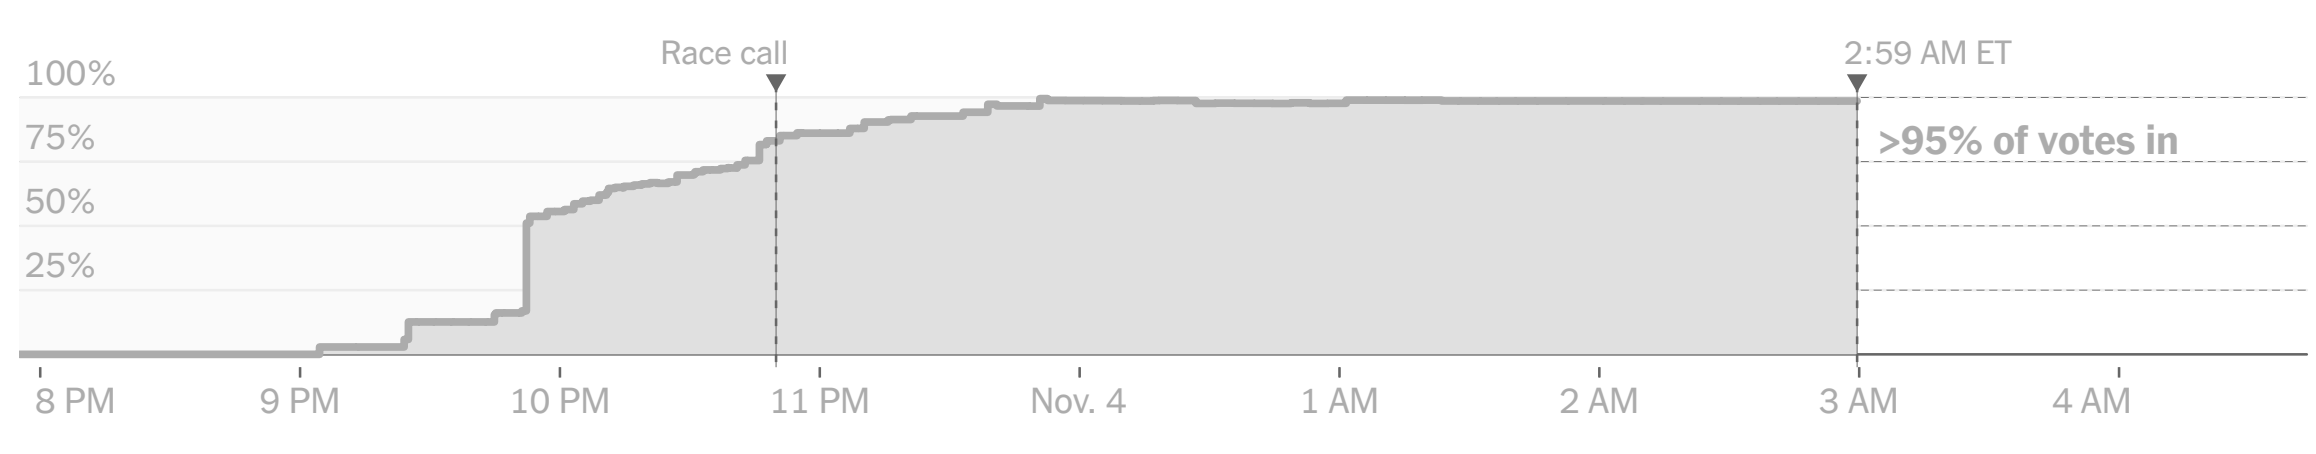
Circle size is proportional to the amount each county's leading candidate is ahead.

Estimated vote margin over time

As of 3:08 AM ET, our model's best estimate of the final margin was **Langworthy +21**.



Expected vote over time



What's powering our live forecast

Our model relies on a combination of extensive pre-election and election night data.

Pre-election polls At the start of the night, our estimate is based on pre-election polls, past election results and demographic data.	0%
Our model As votes come in, we compare actual results to our pre-election estimates to create a statistical model of the remaining vote.	6%
Actual results As a county reports more votes, these tabulated results will gradually supersede our previous estimates.	94%

What our model can see

Our forecast is currently reading results from **9 counties** where vote reporting is close to finished.

About this race

Results timing in New York

Most votes are expected by noon on Wednesday. Mail ballots have a week to arrive if postmarked by Election Day, but only about one in 10 voters cast them in 2024.

Compared to past results

Reported margin	R+21
2024 House margin	R+32
2024 presidential margin	R+21

Carl Hulse Reporting from Maine

I talked exclusively to Senator Susan Collins in the wake of h defeat, and she said she had been swept away in the anti-Tru wave. The Maine Republican has long defied political gravity, voters in the state who had backed her repeatedly said they couldn't do it this time — not because of Collins, but becaus Trump...
